Speaker 1 - **00:03**

Brought to you by audio.

Speaker 2 - **00:04**

AI I am a tester. I want to talk about manual testing. Love my job, love performing it.

Speaker 1 - **00:14**

Lot to learn.

Speaker 2 - **00:15**

Every day.

Speaker 1 - **00:16**

Great work environment insurance is a domain where up till now I have contributed.

Speaker 2 - **00:21**

To projects.

Speaker 1 - **00:23**

It is important to understand the functionalities.

Speaker 2 - **00:25**

Related to policies.

Speaker 1 - **00:27**

Basic insurance terms should be understood before.

Speaker 2 - **00:30**

Joining insurance.

Speaker 1 - **00:32**

Front end and back end testing.

Speaker 2 - **00:33**

Both are being carried out by me. Before carrying.

Speaker 1 - **00:37**

Out testing, it is important to understand the.

Speaker 2 - **00:39**

Requirements.

Speaker 1 - **00:41**

Project coordination.

Speaker 2 - **00:42**

Plays a key role.

Speaker 1 - **00:44**

This is because small errors too take long time to fix in a project.

Speaker 2 - **00:48**

And can cause problems.

Speaker 1 - **00:50**

It is important.

Speaker 2 - **00:51**

To practice because you.

Speaker 1 - **00:52**

Can try different.

Speaker 2 - **00:53**

Things, execute.

Speaker 1 - **00:55**

Test cases, understand the.

Flow happy testing.
